**PRESS RELEASE ON SECOND QUARTER EXPENDITURE RELEASES  
FOR FY 2024/25**

1. I wish to welcome the media and other stakeholders to this press briefing whose objective is to:
  - i. Brief the country on the State of the Economy;
  - ii. Communicate to the country the release of funds to Government institutions for the Second Quarter (Q2) of FY 2024/25; and,
  - iii. Provide guidance to Accounting Officers on execution of the Budget.
2. Let me start by summarising the State of Economy.

**A. STATE OF THE ECONOMY**

**Economic Growth**

3. There is continued expansion of Uganda's economy. This is affirmed by the recently released Quarterly GDP outturns for the second quarter of calendar year 2024 (Apr – Jun 2024) which showed that the economy expanded by 6.6%.
4. Additionally, the high frequency indicators of economic activity show improvements in the level of economic activity and positive sentiments by the private sector about doing business in the economy going forward.
5. The Composite Index of Economic Activity (CIEA) grew to 166.63 in August 2024 from 166.03 in July 2024. Similarly, both the Purchasing Managers Index (PMI) and the Business Tendency Index

**Mission**

*"To formulate sound economic policies, maximize revenue mobilization, ensure efficient allocation and accountability for public resources so as to achieve the most rapid and sustainable economic growth and development"*

This is above the threshold of 50 implying that the business health and sentiments in the private sector are positive.

6. With Government's continued investment in the ATMS to grow the economy ten-fold and other strategic interventions, the economy is poised to grow between 6 – 6.5% this financial year. In the subsequent years, economic growth is projected to be higher, driven by interventions we are implementing under the ten-fold Growth Strategy.

### **Inflation and Exchange rate**

7. Inflation remains subdued, with annual headline inflation declining to 3.0% for the year ended September 2024. This is mainly driven by good harvests of food crops which has resulted in lower prices for food items. Additionally, the central bank's monetary policy stance has played a part in ensuring price stability.
8. The Ugandan shillings has maintained relative stability against the US dollar (USD) with a gradual appreciation since March 2024 except for the month of August 2024 where it slightly depreciated. This stability has been partly supported by increased export revenues, particularly from coffee, despite strong corporate demand for financing imports and other obligations.
9. In September 2024, the Ugandan Shilling appreciated by 0.33% against the USD to an average mid-rate of Shs 3,711.31 per USD compared to an average mid-rate of Shs 3,723.65 per USD in August 2024.

### **External Sector**

10. **Trade Balance:** As of August 2024, Uganda's merchandise trade deficit narrowed to USD 314.1 million from USD 342.8 million in August 2023. This was driven by an increase in export receipts, which more than offset the increase in the import bill. Total exports in August 2024 amounted to USD 789.58 million, implying a 17.9%

growth on the USD 669.69 million the same month last year. Coffee remains one of Uganda's major exports, increasing by 82.2% from USD 121.64 million to 221.63 million in August 2023 and 2024 respectively.

11. Remittances for FY 2023/24 amounted to USD 1,292.76 million. This performance marks the return to pre-COVID remittance numbers as the global economy continues to recover from the shocks experienced over the past few years.
12. Foreign Direct Investment (FDI) inflows to Uganda for FY 2023/24 reached a record high of USD 3,034.11 million, an increase from USD 2,950.60 recorded in FY 2022/23. FDI inflows have increased steadily year on year, largely reflecting the ongoing activity in the oil and gas sector as the country prepares for first oil come FY 2025/26.

### **Debt**

13. As at 15<sup>th</sup> October 2024, the Government had issued domestic debt amounting to Shs 6.825 trillion. Of this, Shs 3.475 trillion was for refinancing maturing debt (roll-over) and Shs 3.350 trillion was for financing general budget activities (net domestic financing/NDF). The issuance so far represents 32% of the issuance target for FY 2024/25. There was a marginal frontload of domestic debt issuance into the first half of the fiscal year in-order to cater for Government financing requirements and at the same time smoothen the seasonality reduction of domestic revenues in Q1.
14. Looking ahead, the inflation outlook is good and the Central Bank in response reduced the CBR from 10% to 9.75% on 7<sup>th</sup> October 2024. We, therefore, expect interest rates on Government securities to be steady with possibility of reduction. We shall not borrow at any cost; we shall borrow only when the cost is affordable. I reiterate, that the Government debt position is sustainable and within internationally recognized benchmarks.

**B. APPROVED BUDGET FOR FY 2024/25**

## **CONCLUSION**

21. In conclusion, I would like to highlight the following:

- i. The Q2 release is in line with our continued effort of fiscal consolidation through coordinated fiscal and monetary policy but also mindful of the need to fund our ten-fold growth strategy;
- ii. All Accounting Officers must ensure that they pay salaries, pensions and gratuity by the 28<sup>th</sup> day of every month and as per the approved salary scales;
- iii. There should be a display of the payrolls for salaries and monthly pension on Government institutions' notice boards every month;
- iv. Accounting Officers must prioritize payment of service providers on time and clearance of domestic arrears to avoid further accumulation of arrears and penalties. I wish to emphasize this – **there should be no creation of arrears;**
- v. **NO** recruitment should be done without clearance from the Ministry of Public Service after ascertaining availability of adequate wage from this Ministry;
- vi. Accounting Officers are required to ensure that every promotion and re-deployment of staff made to a different cost center should be backed up by adequate wage provision; and,
- vii. Accounting Officers should ensure timely submission of warrants to this Ministry for approval by **Friday, 18<sup>th</sup> October, 2024**. In the same vein, quarterly performance reports should be submitted within the timelines stipulated in the law.
- viii. All Government operations this financial year will underpin fiscal discipline, budget credibility, commitment to service delivery and timely project execution.

22. Once again, I wish to thank the Press and Civil Society for supporting our budget transparency initiative. I urge you to make use of our website [www.budget.finance.go.ug](http://www.budget.finance.go.ug) where we post more detailed information.
